

ON CERTAIN INTEGRAL INEQUALITIES OF
MULTIVALENT FUNCTIONS

J. PATEL and G. P. MOHAPATRA

Abstract. Some integral inequalities for multivalent functions are derived by using the technique of Briot-Bouquet subordination which not only improve and sharpen the earlier results but also rise to a number of a new results.

MSC 2000. 30C45.

Key words. Univalent functions, multivalent functions, integral inequalities, differential subordination.
