## QUASICONFORMAL EXTENSIONS OF HOLOMORPHIC MAPS IN $\mathbb{C}^n$

## PAULA CURT

**Abstract.** Let *B* be the unit ball in  $\mathbb{C}^n$  with respect to the euclidian norm. In this paper we will give a sufficient condition such that a holomorphic mapping defined on *B* can be extended to a quasiconformal homeomorphism of  $\mathbb{R}^{2n}$  onto itself.

MSC 2000. 30C65.

Key words. Holomorphic maps, subordination.
