

SOME PROPERTIES OF WEAKLY QUASICONTINUOUS
FUNCTIONS IN BITOPOLOGICAL SPACES

VALERIU POPA and TAKASHI NOIRI

Abstract. In this paper, we obtain several new characterizations of weakly quasi continuous functions in bitopological spaces by using preopen sets and also we study some properties of such functions.

MSC 2000. 54C08, 54E55.

Key words. Bitopological spaces, weakly quasicontinuous, preopen sets.
