MATHEMATICA

Historical note

MATHEMATICA was founded by Petre Sergescu in 1929 with the support of Dimitrie Pompeiu and Gheorghe Țițeica (the first directors of the journal), as well as of other members of the Faculty of Sciences from the University of Cluj. The journal was published without interruption between 1929 and 1948 and then, as a new series, from 1959 until today.

Publisher

MATHEMATICA is published by the Romanian Academy Publishing House under the auspices of the Mathematical Section of the Romanian Academy and the Department of Mathematics from Babeș-Bolyai University Cluj-Napoca. Romanian Academy and Babeș-Bolyai University Cluj-Napoca appoint and support the editorial work of the journal.

Aims and scope

Mathematica publishes original papers, preferably written in English, but also in French, German or Italian, in any area of pure and applied mathematics. In addition to research papers, the journal publishes proceedings of international conferences held in Romania and survey articles. The Editors will put strong emphasis on originality and applicability of the results. All manuscripts are strictly refereed and only papers of high quality are accepted for publication. The journal is reviewed or indexed by *Zentralblatt für Mathematik*, *Mathematical Reviews*, *Scopus* and *EBSCO*.

Information for authors

Our journal agrees with the international standards developed by COPE (Committee of Publication Ethics, <https://publicationethics.org>) for promoting integrity in research publication.

We strongly encourage electronic submission of the papers on the e-mail address of the Editorial Office. We also accept submissions by mail on the address of the Editorial Office, in which case the authors are requested to send the manuscript in duplicate. The authors are asked to provide an electronic address. Since the maximum number of pages of a yearly volume is 200, we recommend to the authors to submit papers not exceeding 15 printed pages. Manuscripts not accepted for publication are not returned to the authors. Upon acceptance, manuscripts should be carefully prepared by the authors using L^AT_EX with the `amsart.cls` document class and `mathcluj.sty` style file, available on the web page of the journal. Authors are requested to follow the arrangements in the sample article on our web page, or in a recent issue, for the style of sections, headings, equations, tables, figures and references.

Copyright information

The submission of a manuscript carries with it the author's assurance that it has not been copyrighted or published elsewhere (except in the form of an abstract or as part of a published lecture or thesis); that is not under consideration for publication elsewhere; that its publication has been approved by all coauthors, and, after being accepted by *Mathematica*, it will not be published in another journal.

MATHEMATICA

VOLUME 64 (87), N° 2, December 2022

CONTENTS

MERYEM ECE ALKAN and FATI H NURAY	
Strongly deferred almost convergence and deferred almost statistical convergence	151
AHMAD AL-OMARI, RIYADH GARGOURI, and TAKASHI NOIRI	
Touch points in ideal Čech closure spaces	164
CHAWALIT BOONPOK	
Weak openness and weak continuity in ideal topological spaces	173
MOHAMED BOUAOUID	
Integral solution of a conformable fractional integro-differential equation with nonlocal condition	186
ABDELMAJID BOUKHSAS	
Positive solutions for a $(p, 2)$ -Laplacian Steklov problem	201
THAAR YOUNIS GHAWI	
Closed co-Hopfian modules	211
EDUARD ȘTEFAN GRIGORICIUC	
Some general distortion results for $K(\alpha)$ and $S^*(\alpha)$	222
SUNDAS KHAN, HÜSEYİN BUDAK, and YUMING CHU	
New quantum inequalities of Hermite-Hadamard type via Green function .	233
AYAT ABDULAALI NEAMAH, AHMAD ERFANIAN, and ABDULRAHMAN H. MAJEED	
On a generalized Cayley graph of column matrices of elements of a finite group	247
HIROKAZU NISHINOBU and TOSHIHIRO YAMAGUCHI	
An example of non-coformal classifying space with rational $H(2)$ -structure	255
K. RAJENDRA PRASAD, MAHAMMAD KHUDDUSH, and BOTTA BHARATHI	
Finite-time blowup and existence of global solutions for a logarithmic semilinear hyperbolic equation	265
MADJID SEBAOUI, GHANIA GUETTAI, DIFFALAH LAISSAOUI, and MOURAD RAHMANI	
Degenerate Stirling numbers and family of Bell polynomials	277
NOUREDDINE SNANOU	
Counting formulas for certain p -subgroups of $GL_n(\mathbb{F}_p)$	291
