FINITE-TIME BLOWUP AND EXISTENCE OF GLOBAL SOLUTIONS FOR A LOGARITHMIC SEMILINEAR HYPERBOLIC EQUATION

K. RAJENDRA PRASAD, MAHAMMAD KHUDDUSH, and BOTTA BHARATHI

Abstract. In this paper we consider the semilinear wave equation with the product of logarithmic and polynomial nonlinearities and establish the global existence and finite-time blowup of solutions by using the potential well method. **MSC 2010.** 35L71, 35L20, 35L05.

Key words. Global existence, finite-time blowup, logarithmic and polynomial nonlinearity, potential well.
