MATHEMATICA

Historical note

MATHEMATICA was founded by Petre Sergescu in 1929 with the support of Dimitrie Pompeiu and Gheorghe Țițeica (the first directors of the journal), as well as of other members of the Faculty of Sciences from the University of Cluj. The journal was published without interruption between 1929 and 1948 and then, as a new series, from 1959 until today.

Publisher

MATHEMATICA is published by the Romanian Academy Publishing House under the auspices of the Mathematical Section of the Romanian Academy and the Department of Mathematics from Babeș-Bolyai University Cluj-Napoca. Romanian Academy and Babeș-Bolyai University Cluj-Napoca appoint and support the editorial work of the journal.

Aims and scope

Mathematica publishes original papers, preferably written in English, but also in French, German or Italian, in any area of pure and applied mathematics. In addition to research papers, the journal publishes proceedings of international conferences held in Romania and survey articles. The Editors will put strong emphasis on originality and applicability of the results. All manuscripts are strictly refereed and only papers of high quality are accepted for publication. The journal is reviewed or indexed by *Zentralblatt für Mathematik*, *Mathematical Reviews*, *Scopus* and *EBSCO*.

Information for authors

Our journal agrees with the international standards developed by COPE (Committee of Publication Ethics, <https://publicationethics.org>) for promoting integrity in research publication.

We strongly encourage electronic submission of the papers on the e-mail address of the Editorial Office. We also accept submissions by mail on the address of the Editorial Office, in which case the authors are requested to send the manuscript in duplicate. The authors are asked to provide an electronic address. Since the maximum number of pages of a yearly volume is 200, we recommend to the authors to submit papers not exceeding 15 printed pages. Manuscripts not accepted for publication are not returned to the authors. Upon acceptance, manuscripts should be carefully prepared by the authors using L^AT_EX with the `amsart.cls` document class and `mathcluj.sty` style file, available on the web page of the journal. Authors are requested to follow the arrangements in the sample article on our web page, or in a recent issue, for the style of sections, headings, equations, tables, figures and references.

Copyright information

The submission of a manuscript carries with it the author's assurance that it has not been copyrighted or published elsewhere (except in the form of an abstract or as part of a published lecture or thesis); that is not under consideration for publication elsewhere; that its publication has been approved by all coauthors, and, after being accepted by *Mathematica*, it will not be published in another journal.

MATHEMATICA

VOLUME 65 (88), N° 1, June 2023

CONTENTS

AHU ACIKGOZ, TAKASHI NOIRI, and BURSA GOLPINAR On h -local functions in ideal topological spaces	3
MAHNAZ AHMADI, ALI SARBAZ JANFADA, and KAMRAN NABARDI On the solutions of quartic Diophantine equations	12
KHALDOUN AL-ZOUBI and SHATHA ALGHUEIRI On a generalization of graded 2-absorbing submodules	19
CHAWALIT BOONPOK $\theta(\star)$ -precontinuity	31
ABDELBAKI CHOUCHA and DJAMEL OUCHENANE Decay results for a viscoelastic wave equation with distributed delay in boundary feedback	43
ORHAN DIŞKAYA and HAMZA MENKEN On the recurrences of the Jacobsthal sequence	60
MOTAHAREH IRANI, YAHYA TALEBI, and ALI REZA MINIRI HAMZEKOLAEI A new approach to multiplication modules via (δ) -small submodules	66
RACHIDA KAID, ATIKA MATALLAH, and SOFIANE MESSIRDI Multiple solutions to p -Kirchhoff type problems involving critical Sobolev exponent in \mathbb{R}^N	75
ÁBEL LŐRINCZI On the combinatorial nature of tree representations of Euclidean quivers	85
ABDELLAH MAMOUNI, LAHCEN OUKHTITE, and MOHAMMED ZERRA Some results on derivations and generalized derivations in rings	94
MOHAMMED MASSAR Existence and nonexistence of solutions for a p -fractional Kirchhoff equation with critical growth in \mathbb{R}^N	105
SOUFYANE MOKHTARI and BOUALEM BENSEBA The Galois group of $X^{p^2} + aX + a$	115
MOHAMED MOUMEN, LAHCEN TAOUFIQ, and ABDELKARIM BOUA On prime Banach algebras with continuous derivations	122
PARISA SEIFIZADEH and AMIRALI FAROKHNIAEE The absolute Frattini automorphisms	133
SUKRAN UYGUN Two dimensional Gaussian Pell sequences	139
