MATHEMATICA

Historical note

MATHEMATICA was founded by Petre Sergescu in 1929 with the support of Dimitrie Pompeiu and Gheorghe Țițeica (the first directors of the journal), as well as of other members of the Faculty of Sciences from the University of Cluj. The journal was published without interruption between 1929 and 1948 and then, as a new series, from 1959 until today.

Publisher

MATHEMATICA is published by the Romanian Academy Publishing House under the auspices of the Mathematical Section of the Romanian Academy and the Department of Mathematics from Babeș-Bolyai University Cluj-Napoca. Romanian Academy and Babeș-Bolyai University Cluj-Napoca appoint and support the editorial work of the journal.

Aims and scope

Mathematica publishes original papers, preferably written in English, but also in French, German or Italian, in any area of pure and applied mathematics. In addition to research papers, the journal publishes proceedings of international conferences held in Romania and survey articles. The Editors will put strong emphasis on originality and applicability of the results. All manuscripts are strictly refereed and only papers of high quality are accepted for publication. The journal is reviewed or indexed by *Zentralblatt für Mathematik*, *Mathematical Reviews*, *Scopus* and *EBSCO*.

Information for authors

Our journal agrees with the international standards developed by COPE (Committee of Publication Ethics, <https://publicationethics.org>) for promoting integrity in research publication.

We strongly encourage electronic submission of the papers on the e-mail address of the Editorial Office. We also accept submissions by mail on the address of the Editorial Office, in which case the authors are requested to send the manuscript in duplicate. The authors are asked to provide an electronic address. Since the maximum number of pages of a yearly volume is 200, we recommend to the authors to submit papers not exceeding 15 printed pages. Manuscripts not accepted for publication are not returned to the authors. Upon acceptance, manuscripts should be carefully prepared by the authors using L^AT_EX with the `amsart.cls` document class and `mathcluj.sty` style file, available on the web page of the journal. Authors are requested to follow the arrangements in the sample article on our web page, or in a recent issue, for the style of sections, headings, equations, tables, figures and references.

Copyright information

The submission of a manuscript carries with it the author's assurance that it has not been copyrighted or published elsewhere (except in the form of an abstract or as part of a published lecture or thesis); that is not under consideration for publication elsewhere; that its publication has been approved by all coauthors, and, after being accepted by *Mathematica*, it will not be published in another journal.

MATHEMATICA

VOLUME 68 (91), N° 1, June 2026

CONTENTS

JOHNSON ADEREMI AWOLOLA, MUSA ADEKU IBRAHIM, and ABDUSSAMAD TANKO IMAM	
Extended results on multiplication Γ -semigroups	3
AMEL BOULFOUL and OUARDA SAIFIA	
Existence results for fractional boundary value problem in a particular Banach space	11
CHRISTOPHE CHESNEAU	
Study of an extended trivariate Hilbert integral inequality	21
MOHAMMED ALI DEHGHANIZADEH and BIJAN DAVVAZ	
From generalized groups to the new version of generalized polygroups ..	34
KHALDI SAID, ARIQUI FATIMA ZAHRA, and HAKEM ALI	
A new gap in the critical exponent for semi-linear structurally damped evolution equations	46
S. MADHUMITHA and SUDEV NADUVATH	
k -dominator coloring of graphs	61
MOHAMED MOURABET, MOHAMED ECH-CHAD and YOUSSEF BOUHAFSI	
On an elementary operator with (n, k) -quasi- $*$ -paranormal operators entries	74
HADJER RYMA MOUSEDDEK and FATIMA BOUDAUD	
A generalized approach to dynamical Gröbner bases in Boolean structures	87
ARIJIT SAHA, SIDHARTHA RAJGURU, GITARTHA RAJGURU, YUVRAJ SINGH, STABDI SARMA, SANTANU ACHARJEE, and DEBASISH BHATTACHARJEE	
Primal m -space	101
ANAND JYOTI SANASAM, NINGOMBAM CHA COGENT, and M. PREMJI SINGH	
On certain real-valued functions which generate free groups	116
AHMAT MAHAMAT TABOYE and TOUFIK ENNOUARI	
Stability analysis of KdV equation with time-varying delay and input saturation	127
ALEXANDER ZIMMERMANN	
Differential graded division algebras, their modules, and dg-simple algebras	146
